Subject: March 23 Decommissioning Forum
[2016March23 DecommissioningForum bios.pdf](#)

Dear Friends,

On Wednesday, March 23rd, the Pilgrim Coalition will be hosting a Decommissioning Forum at the Plymouth Public Library from 7-9:30pm. We would like to invite you to attend the presentation and ask questions. The forum is open to regional and local representatives, along with concerned neighbors from across towns, as this is not just an issue limited to Plymouth. The forum will provide objective, expert panelists from across the region who have previously dealt with decommissioning issues, know the risks involved, and know how to plan with the public in mind.

Here are some questions that will be covered during the panelists presentations: *Who Pays? Will Entergy be responsible to continue funding local towns? Will the site be cleaned up? If so, when?*

Attached is the flyer for the event with the bios of the panelists. We hope you, your friends and colleagues will join us.

Thank you,
Anna Baker
Chair, Pilgrim Coalition
On Behalf of the Pilgrim Coalition Steering Committee

Protecting the People: Decommissioning Pilgrim Nuclear Power Station

Plymouth Public Library
132 South Street
Plymouth, MA

WEDNESDAY

MARCH 23

7:00–9:30 PM

An informational forum with discussion and presentations on decommissioning the Pilgrim Nuclear Power Station in Plymouth, MA. Find out what the closure of Pilgrim means for you and your community, and ask questions of our expert panelists:

Arnie Gundersen — *Chief Engineer, Fairwinds Associates*; graduated Rensselaer Polytechnic Institute cum laude with a BS and Master of Nuclear Engineering; holds a nuclear safety patent, was a licensed reactor operator who taught reactor physics, and served as a senior VP for the nuclear industry; has given expert witness testimony to the NRC, state regulatory agencies, and U.S. federal court regarding nuclear power engineering design defects, safety flaws, decommissioning and dismantlement.

Tim Judson — *Executive Director, Nuclear Information and Resource Service*; President of the Board, Citizens Awareness Network; co-founder, Alliance for a Green Economy (AGREE); organizer, campaigner, researcher, and policy analyst on nuclear issues since 1998.

Deb Katz — *Executive Director, Citizens Awareness Network (CAN)*; intervened in NRC proceedings on the decommissioning of Yankee Rowe and CT Yankee; won a lawsuit against the NRC for the illegal decommissioning of the Rowe reactor; and has organized a People's Summit on High-Level Nuclear Waste as well as numerous decommissioning hearings and forums throughout New England.

Marvin Resnikoff, Ph.D. — *Senior Associate, Radioactive Waste Management Associates*; Project Director for dose reconstruction and risk assessment studies of waste facilities and transportation of radioactive materials; international consultant on radioactive waste management issues.

Raymond Shadis — *Consultant, New England Coalition*; served the NRC on an Implementation Evaluation Panel for its Reactor Oversight Process; presenter on decommissioning and nuclear regulatory topics at NRC conferences and annual meetings; launched a 35-year personal campaign of nuclear safety and environmental advocacy by initiating the nation's first referendum to close an operating nuclear power station, Maine Yankee.
